

SMART

SMART is the basis of our intelligent construction system used across our entire touring caravan range. Strong, Modern, Aerodynamic, Resilient and Tested, you can be assured your Swift caravan is a high quality, engineered product.

STRONG

The Strong timberless body frame uses 'PURE', a tough, hard polyurethane based product, that is totally impervious to water and has been proven through use

MODERN

The SMART construction system uses Modern materials, and has been developed to ensure the exterior profiles maintain the Modern, desirable looks our caravans are renowned for.

AERODYNAMIC

We continue to lead the way in Aerodynamics, using Computational Fluid Dynamics to help shape the bodyshell for better fuel consumption and safer towing.

RESILIENT

All fixings are made into the 'PURE' material to a pre-defined depth. 'PURE' is totally impervious to water and has no veins. This means there is no passage for water from the outer skin, making the caravan highly Resilient to moisture.

TESTED

Extensive safety and durability Testing at the Millbrook track, and cold chamber Testing down to minus 15°C and beyond, puts prototypes through conditions most products will never have to experience in a lifetime; all part of the Swift ethos to deliver the best products to you.

EQUIPMENT

- Integrated DAB and FM radio tuning and sound setting control
- Dual fuel heating with Truma Combi Boiler • Digital programmable controller for heating and hot water
- Thetford 3 burner hob with glass lid cut out safety feature, oven and separate grill
- Ventilated microwave oven with digital controls built at an easily accessible level
- Dometic 100 litre, electronic ignition fridge with removable freezer compartment, black effect finish and digital controls
- Jet Storm shower head for a powerful shower that uses less water
- Thetford C260 toilet with electric flush and 18 litre wheeled waste tank
- High flow rate inboard pump with chrome effect taps for reliable, high performance water supply
- Isolation taps for gas appliances
- Fully protected mains electric system
- 25 amp switchmode charger/transformer
- LED lighting throughout interior including
- Status 570 directional digital / analogue TV/FM aerial and booster
- TV station with 230V, 12V and aerial sockets (two in selected models)
